# ***Vision 2016 Council***

## **MEDIA RELEASE**

**To: All Botswana Media**

**From: Publicity Manager  
Vision 2016 Council**

**Date: 14<sup>th</sup> October 2004**

**SUBJECT: WORD OF APPRECIATION TO ORGANISATIONS AND  
INDIVIDUALS WHO CONTRIBUTED TO VISION 2016  
TORCH MISSION**

**As part of the Vision 2016 Awareness month commemorations in September, the Vision 2016 Council floated a Vision 2016 Torch around the country in an effort to highlight and symbolise the importance of Vision 2016 as a light of hope for the nation, and the need for all stakeholders to play an active role towards its realisation.**

**An entourage of about twenty five men and women perseveringly and courageously carried the torch to its various destinations, and were received with pomp and high expectation wherever they went.**

**The success of this mission would not have been possible were it not for the dedicated efforts of various stakeholders who contributed financial, human and material resources towards the welfare and other needs of the entourage.**

**The Vision 2016 Council would like to publicly thank members of the torch entourage for their commitment to the assignment, particularly following the road accident that occurred on their way to Grootlaagte in the Gantsi district, and for overcoming all the challenges that they had to endure all the way until the last destination.**

**The Council would also like to thank the following organisations for their assistance. This exercise would not have been a success without their timely contributions. The organisations took it upon themselves to show their commitment to being part of the implementation process of Vision 2016. For this the council will remain indebted to these important partners.**
